Commissioner for Patents

The reply filed on December 9, 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The 35 U.S.C. 112, second paragraph rejection concerning claim 5 does not appear to have been addressed since only the corrections to the claim objection in paragraph 5 in the Office Action mailed October 4, 2005 were done. There is still no structural cooperative relationship claimed between the line leading from the reservoir outlet to the water manifold inlet and to the suction side of the pump in either claims 5 or 13. The line leads from the reservoir outlet to the fitting, then the line leads from the fitting to the manifold and then the manifold is connected to the suction side of pump. This is not reflected in either claim 5 or claim 13. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
